

Refresher Training Programme

MacArtney winch systems

Type of training

Hands-on training and Q&A sessions.

Place of training

The training will take place at the physical location of the MacArtney winch. The winch must be accessible and fully operational.

Training schedule and duration

The training course will cover 1½ days.

Training goals

The refresher training programme is intended to follow up, refresh and extend the knowledge and skills acquired during the initial training session at the time of installation. Furthermore, the programme will work to build and maintain a better onboard knowledge base in support of smoother winch system operation.

Scope of training

- Operation of the MacArtney winch
- Maintenance of the MacArtney winch
- Q&A session on operational experiences
- Q&A session on troubleshooting experiences

Participants

The number of participants on the training programme is limited to 4-6.

The participants are required to hold:

- Basic knowledge of marine winch operation
- Basic operational or troubleshooting winch experience
- Basic English language proficiency (written and oral)

Training schedule

Day 1

- Q&A session on winch operations (4-6 month operational experience perspective)
- Winch system walkthrough (operational)
- Winch system walkthrough (electrical)
- Known yields
- Known hurdles
- Hands-on operation of winch

Day 2

- Recap of answers from Q&A sessions
