

MacArtney Denmark seeks: WORKSHOP TECHNICIAN

Are you ready for professional challenges, and the opportunity to work with products and solutions at a high technical level? Do you thrive in a dedicated and reliable team? Then this job might be the right match for you!

THE POSITION

Our Workshop handles high-tech cable systems. We have extensive experience and expertise in the development and production of customer-specific projects within offshore, ocean science and renewable energy, which brings new and exciting challenges every day.

You will become part of a well-functioning team of 11 colleagues, in a busy and informal organisation, which is characterised by the fact that we provide products and solutions at a high technical level.

RESPONSIBILITY

Along with the rest of the team, you will be responsible for ensuring timely delivery and that the quality of our products is top-notch.

The area of responsibility will also include the following:

- Produce cables and connectors for the offshore sector and other underwater products
- Perform assembly and construction of cable systems - including soldering of cables
- Participate in the production of waterproof mouldings for cables and connectors using polyurethane (PUR)
- Ad-hoc assignments in the Workshop

CANDIDATE PROFILE

You have a calm personality and good at creating personal relations. You have a positive approach to clients and colleagues. You are dedicated, energetic and committed to your work. It is important to us that you are a responsible person, have a great sense of order and quality consciousness. Furthermore, you are punctual, flexible and thrive in a busy workday.

YOUR BACKGROUND

- Trained Machine Operator, Electrician, Mechanic, Blacksmith, Electro mechanic or similar
- Minimum 3 years of relevant experience
- Understanding and flair for precision engineering
- Master Danish and English in both writing and speech

WE OFFER

An exciting position in an international company which is characterised by solid growth and grand ambitions – and which has the means and the will to turn ambitions into reality. We work to a high professional level, from concept to installation, where there is also room for you to develop through independent tasks with matching responsibility.

Please send your application to hr@macartney.com. We look forward to receiving your application.

Applications are reviewed and processed on an ongoing basis meaning the vacancy will remain open until we find the right candidate.

If you have any questions regarding the vacancy, please contact Dan R. Christensen at drc@macartney.com or by phone 7613 2090.

Workplace: MacArtney A/S (Headquarters)
The position is full-time.
