

Warehouse Assistant

Are you passionate about working with warehouses and logistics? Does it motivate you to help structure a warehouse and are you passionate about the processes involved in handling goods receipts and shipments? If yes, this might be the job for you – read on!

The position

We are looking for a competent and structured Warehouse Assistant for a job in an exciting international company with a very good working environment where we work together. You will be part of a dedicated team that currently handles goods receipts, warehouse management and shipments.

Responsibilities

You are responsible for picking and packing orders as well as for receiving goods in Hjerting (Esbjerg), which is our head office. In addition, it involves the handling of shipments of various goods, such as cables, including documentation for this purpose. You will work very closely with your competent colleagues in the team and of course with your other good colleagues across the organisation. We have a strong focus on health and safety at the warehouse

Responsibilities will further include:

- Receipt of goods and storage of received goods
- Ensure correct packaging of goods
- Winding cables
- Ongoing inventory taking
- Registrations in Navision
- Various ad hoc tasks in the warehouse

Your profile

You are dedicated and structured and you also have a high degree of orderliness. You are a team player and willing to contribute with a positive attitude to your team and you value cooperating with colleagues. You have a positive approach to your tasks and can work independently. You take pride in always performing your tasks accurately and correctly. You thrive in a busy environment and can keep track of your tasks, even when it gets hectic.

Your background also includes:

- Trained Warehouse & Logistics Assistant
- A forklift certificate and driving licence
- Minimum 2-4 years of relevant experience
- Speaking, reading and writing Danish and English
- Being flexible and with good interpersonal skills
- Experience working in stock management programmes
- Experience with Navision is an advantage, but not a requirement.

We offer

An exciting job in an international company that is growing and has great ambitions - and which has the means and will to turn ambitions into reality. We work at a high professional level, from concept to installation, where there is also room for you to develop through tasks involving independence and responsibility.

If you have any questions about the position, please contact the Distribution Manager; Tina Isen at ti@macartney.com or by telephone at +45 7613 2096 or HR Director; Lone Kousgaard at lk@macartney.com or by telephone at +45 2974 6615.

We look forward to receiving your application. Applications should be sent to hr@macartney.com.

The position is full-time at MacArtney A/S in Hjerting, Esbjerg.

Applications are processed on an ongoing basis, and the position will thus be open until the right candidate is found.

About MacArtney

The MacArtney Group is a global supplier of underwater technology solutions specialising in the design, manufacture, sales and service of a wide range of solutions to onshore industry operators, subsea surveyors, the renewable energy sector, ocean science institutes, maritime civil engineering industries and navies across the world.
